

The Federal Identity, Credential and Access Management (FICAM) initiative is an effort of the [Federal Chief Information Officers \(CIO\) Council](#) to consolidate all government-wide identity, credential, and access management activities.

The [FICAM Roadmap and Implementation Guidance](#) provides an outline of government-wide segment architecture and practical guidance for implementing a segment architecture for FICAM management programs.

Alignment with the FICAM Roadmap is required per [OMB Policy Memorandum M-11-11](#).

[FICAM Maturity Model](#)
